Precious and Very Great Promises

Fifth week in the series 'Immortal. Invisible.'

2 Peter 1:3-21

The Bible is unique. Its texts have been unveiled over centuries, “breathed out” by God using human authors who each speak in their own voice. These Scriptures are God’s glorious gift of self-disclosure to the lost and blind children of Adam. We do well to remind ourselves of the beauty and power of God’s Book.

Discussion Questions:

1. For centuries skeptics have announced their reasons for regarding the Bible as a merely human document. How have you dealt with “learned” skepticism of this sort?
2. Can you relate a time when a text of scripture “came alive” for you as you read it or heard it explained?
3. What steps can you take to feed on the Word of God more faithfully?
