

For the week of January 14, 2018
Preacher: Paul Taylor

Our Body Life

Second week in the series: *PBC DNA – Why we do what we do*

Ephesians 4:16

In our second message on PBC DNA, we look at a passage in Ephesians that has been critical to understanding of church. These verses tell us who we are, what we do, how we do it and what the result is. They have shaped us into a body, individually contributing to the whole as we grow into the maturity of knowing Jesus better.

Discussion Questions:

1. How are you gifted by God? What role can you play in the life of this community?
2. In what ways do you equip others for the work of ministry? What kinds of ministry are you called to?
3. What are the benefits and challenges of being a community held together by relationships?
4. What does it mean to you to be mature in Christ? Have you seen growth in that area?
