

For the week of January 28, 2018  
Preacher: Paul Taylor

# Our Shared Leadership

Fourth week in the series: *PBC DNA - Why we do what we do*

2 Corinthians 4:5-12, 5:16-17

Continuing our series on the DNA of our church, we consider the philosophy of leadership that has shaped our community and our church structure. We'll look at several biblical principles that shape our understanding of biblical leadership as a whole and see how those help to form our formal church leadership structure as well. Ultimately we'll see how all our leadership enables us to become followers of Jesus.

## Discussion Questions:

1. What areas have you offered leadership? In your community? At your workplace/school? In your church?
2. What makes leadership vulnerable to you?
3. What do you think is the most important thing that church leaders need to do?
4. How would you summarize Peter's instructions to elders in 1 Peter 5:1-4?
5. How does learning to submit make someone a better leader?
6. How does leading help you to follow Jesus?
